

WHAT SCHOOL DO WE NEED? THE ROLE OF THE SCHOOL TODAY

Roksana Ulatowska¹

Keywords: role of the school; Finnish educational system; values in the school

Abstract: The author discusses the current role of school as an element of the wider social system. She wonders if school is a place where students gain valuable knowledge, skills and attitudes. Recalling the model of Finnish education, the author shows a school that teaches how to explore the world and competently live in it.
